

Kraft paper wrapppper

A green choice
upstream in the
production process

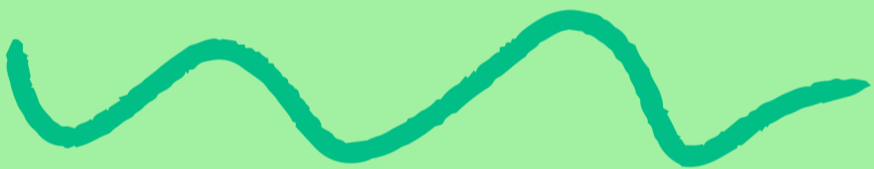

Wrapped with kraft
paper by ACMI

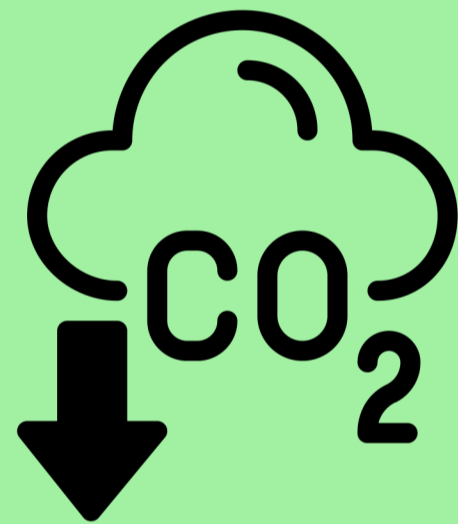

**Sustainable
papers come
from responsibly
managed forests,
where trees are
replanted and
grown
sustainably.**

**Unlike plastic,
which is
made from
finite fossil
fuels, paper is
a renewable
resource.**

**Responsibly obtained paper
actually helps offset greenhouse
gas emissions.**

Recyclability

Sustainability

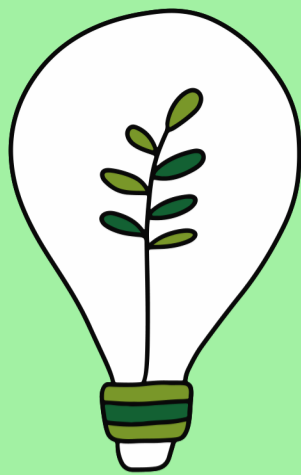

Social responsibility

Reduced environmental impact

If these are also your goals, the
ACMI kraft paper wrapper is
the perfect solution!

Our solutions

1

ROCKET E500
(up to 100 pallets/h)

2

ROCKET E-S
(up to 40 pallets/h)

3

**ROCKET E-S SEMI
AUTOMATIC**
(in line or stand alone)

Warehousing & Shipping

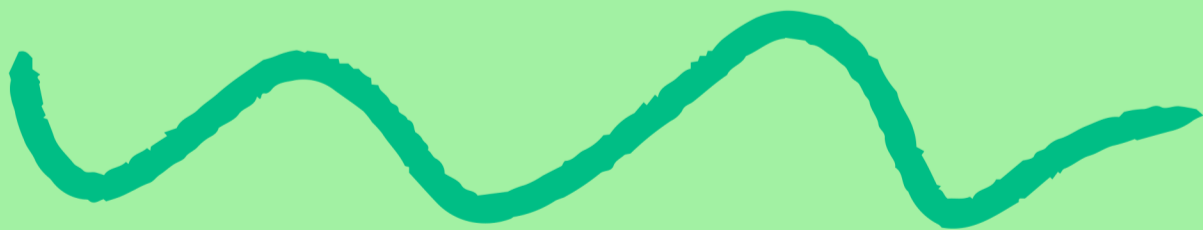

Acmi
Bottling and packaging systems

Pallet holding (EUMOS test)

Acceleration test results showed that a pallet wrapped with kraft paper exhibits less deformation than the same pallet wrapped with stretch film.

Thanks to 40 years of experience, ACMI is one of the world's leading companies in the design of packaging systems for the beverage, food, pet food, tissue and chemical sectors.

The new **"GoGreen by ACMI"** end-of-line products do not use plastic material for packaging operations.
